

**SIOUX VALLEY ENERGY
P.O. BOX 216
COLMAN, SD 57017**

APPLICATION FOR ELECTRIC HEAT RATE

I hereby make application to participate in Sioux Valley Energy's electric heat rate program.

I further understand that this rate applies only to separately-metered electricity used for space heating for the period of October through the following April meter readings of each year. A reduced rate is also available for separately metered energy used by central air conditioners and heat pumps from May to September provided the air conditioner is connected to the Sioux Valley Energy load management system and my primary heating source is electric.

I understand that Sioux Valley Energy has the right to adjust or discontinue this rate at the discretion of its Board of Directors, and that I may elect to discontinue my participation in this program at any time.
