

\$HIFT TO TIME OF USE RATE & \$AVE

Put the power in your hands by signing up for the Sioux Valley Energy Time of Use (TOU) electric rate. You can **\$AVE** big just by **\$HIFTING** your energy use to off-peak times.

How can you shift electric usage to off-peak hours?

Here are a few ideas:

- Use appliances such as dishwashers, clothes washers, dryers, etc., during off-peak times. Some appliances can be programmed to run at a certain time, and smart appliances can be controlled remotely from your smartphone.
- Use a wireless smart thermostat to control your home's heating and cooling from anywhere. Pre-cool the home before on-peak hours, then turn it down during on-peak hours.
- If you own a plug-in electric vehicle, schedule charging to take place during off-peak hours.
- Install automatic timers to equipment such as water heaters, circulating pumps, or pool pumps.
- Practice conservation: turn off unnecessary lights and electronics.
- When replacing appliances, purchase ENERGY STAR® models.

SCAN ME

There is no risk to you! Sioux Valley Energy offers a **three-month risk-free trial** to help members adjust to scheduling tasks and conserving energy.
