SIoux VALLEY ENERGY
PO BOX 5512
SIoux FALLS, SD 57117-5512

Your Sioux Valley Energy electric bill has several components. Some of the most important indicate how much energy you used during the month, your actual meter readings, and something called a multiplier. Here is an easy-to-understand guide to reading your monthly electric bill. Not every member has a bill that looks exactly like this, depending on whether you have a submeter for electric heat or receive a bill credit for load management. If you ever have questions about what you seen on your electric bill, don't hesitate to give us a call at 800-234-1960.

1.

Energy Usage History: This tracks your electric use over the past 13 months. It also offers information on the average daily use, calculating the average cost of electricity per day. For more detailed information about your daily and hourly energy usage, sign up for SmartHub. You can find the link on the Sioux Valley Energy website.

2.

Meter Information: The first meter (59069) indicates the main meter that keeps track of your electric use. Usage for the second meter (72318) at this location is the submeter which is billed at a reduced rate for electric heating. The submeter is subtracted from the main meter.

Multiplier: Some meters run at different ratios, depending on how the meter is wired. At this location, the main meter records 100% of the load and the submeter records a defined fraction (1/20) of the load.

3.

Regular Rate: This shows you what rate you are paying for your electricity. This rate is for your main meter.

SD Elec Heat: This shows you what reduced rate you are paying for your electric heat. This rate is for your submeter.

4.

Basic Service This is the amount that you pay to have electricity at your home/business 24-7. It pays a portion of the fixed costs for the wires, transformers, meters, etc.

5.

Operation Round Up: Seventy-five percent of SVE members round up their monthly electric bill to the next highest dollar amount. That money is then put into a foundation and is awarded to charitable organizations throughout the SVE service territory.
